

THE HOSPITAL FOR
SICK CHILDREN

Download a travel letter (see below) to show along with your medications when going through airport security.

To Whom It May Concern:

The patient _____ is attending the Endocrinology Department at The Hospital for Sick Children and has been prescribed specific Adrenal insufficiency treatment (**Solucortef vials and/or Hydrocortisone/Prednisolone liquid and/or Florinef tablets**). The Florinef must be kept in a cooler bag with ice packs. The Solucortef is given by injection and requires needles and syringes. Due to the nature of the medication it must remain with the patient at all times (ie: carry on baggage only). Feel free to search this product by hand and contact the clinic for any further information.

Contact the 24-hour Endocrine Response Line at 416-813-7500

Thank you for your cooperation,

Bailie Tabak, B.Sc(N), RN
Endocrine Clinic Nurse
Sick Kids Hospital
