

Fellowship Opportunities

Clinical Fellowship Program-Department of Paediatrics

The Hospital for Sick Children is a health care, teaching and research centre affiliated with the University of Toronto and dedicated exclusively to children. The Department of Paediatrics is offering Departmental Fellowships for excellent candidates seeking additional clinical and/or research training in any of the Department's Divisions listed below. Departmental Clinical Fellows will be appointed for a one year term (renewable) with negotiable starting dates, as follows:

- ❖ Appointments will be competitive, and will be chosen based on the candidate's qualifications and the quality of the training experience to be provided by the host Division.
- ❖ Each fellow will be required to provide clinical services consisting of 55 in-house overnight shifts and 22 in-house weekend 24-hours shifts per year, covering as a core paediatric resident.
- ❖ While the program will attempt to schedule the above on call service in areas appropriate to the Fellow's specialty area of interest, Fellows must be prepared to work in any area compatible with their skills and the needs of the Department (current major needs include: Hematology/Oncology, Bone Marrow Transplant Unit, General Paediatrics, Neonatology, and Emergency Department).
- ❖ No additional night or weekend call will be required by the sponsoring Division.
- ❖ As with all clinical and/or research fellowship appointments, these fellowships are for additional or "top-up" training: no credit towards Royal College of Physicians and Surgeons of Canada qualifications will be offered.
- ❖ Salary will be at a competitive level appropriate to the level of training.
- ❖ Candidates will be required to provide their own malpractice insurance coverage.
- ❖ Applications should be submitted prior to September 1st.

Fellowships are available in the following Programs:

Adolescent Medicine	Gynecology
Bone Marrow Transplantation	Hematology/Oncology
Cardiology	Immunology/Allergy
	Infectious Disease
Clinical Genetics	Multi-Organ Transplant
Clinical Pharmacology	Neonatology
Dermatology	Neonatal Transport
Developmental Paediatrics	Nephrology
Emergency Services	Neurology
Endocrinology	Paediatric Transport
Gastroenterology/Clinical Nutrition	Paediatric Inpatient Medicine
General Paediatrics	Respiratory Medicine
	Rheumatology

Interested Applicants should send their CV, three letters of reference, and a letter outlining their area of clinical/research interest to:

Dr. Michael Weinstein
C/o Ms. Angela McGerrigle
