New Edition of SickKids Handbook of Pediatrics

The 11th edition of The Hospital for Sick Children Handbook of Pediatrics, led by staff editors Drs. Anne Dipchand and Jeremy Friedman, with resident editors Drs. Zia Bismilla, Sumit Gupta and Catherine Lam, has just been published! The new edition is designed to be the essential paediatric reference for use in any health-care setting. Arranged by body system for quick reference, the new edition of the handbook allows you to instantly access key topics with up-to-date diagnostic and therapeutic approaches to paediatric clinical problems. This handbook is used across Canada as well as in many countries throughout the world and its 1,000 pages reflects the combined efforts of well over a hundred Sickkids staff and trainees.

The Hospital for Sick Children Handbook of Pediatrics, 11th edition will be available at the hospital's 5 Fifty 5 Shop or you can purchase it online – go to Quick Links, Recommended Reading on the main page of the SickKids website. It is also available at major booksellers across the country.
