

PAEDIATRIC NEURO CRITICAL CARE

**ADVANCED FELLOWSHIP:
DEPARTMENT OF CRITICAL CARE MEDICINE**

GENERAL OBJECTIVES

To Provide:

A year of academic clinical training focusing on the acute management of neurological and neurosurgical conditions that affect critically ill children.

Focused education to develop expertise that is valuable to sub-specialist in neurocritical care in order to provide advanced care in large volume paediatric intensive care programs.

The ability to function in the role of a junior attending in the latter part of the training – to coordinate patient management, team functioning and education.

OVERVIEW

Clinical training focuses on acquiring advanced neurocritical care knowledge and skill in caring for critically ill children in intensive care. Elective rotations in neuroimaging, neurological and epilepsy surgery, stroke, neonatal neurology, electrophysiology, with rotations in adult neurotrauma critical care and paediatric rehabilitation in acquired brain injury in affiliated hospitals of the University of Toronto.

ELIGIBILITY

Physicians must be on track to/or have completed their minimal requirement for certification of Paediatric CCM (PCCM) residency at the time of beginning the 12 months of training. For trainees of PCCM programs accredited in Canada by the Royal College of Physicians of Canada (RCPSC), this would be following at least 24 months of training. For applicants trained in the United States in programs accredited by the Accreditation Council for Graduate Medical Education (ACGME), the requirements for being board eligible for American Board of Pediatrics subspecialty certification examination should be completed before starting the year of advanced clinical training. Physicians from other jurisdictions (e.g., Australia and New Zealand) may be considered on a case by case basis if they have demonstrated successful completion of a core PCCM training program accredited in an equivalent setting. Physicians must have mastery of written and oral communication in English before consideration will be given to their application.

*One year of advanced clinical training focused in
Paediatric Neuro Critical Care Medicine*

ACADEMIC CYCLE

The Advanced Subspecialty Fellowship in PCCM runs during the academic year from July 1st – June 30th.
